Mingfei Qiu is a Senior Quantitative Risk Management Analyst at Federal Home Loan Bank of Atlanta. She is a model validator working on the credit risk, operational risk, market risk, and accounting models. Her research interests are in the areas of machine learning and credit rating models. She serves as committee member and reviewer for academic journals and conferences. She is also interested in campus engagement activities that could motive more college students to enjoy learning statistics and mathematics.

Mingfei Qiu obtained an M.S. in Financial Mathematics and a Ph.D. in Statistics from Florida State University in 2015. She is currently a part-time student in the M.S. of Computer Science program at Georgia Institute of Technology.
