(1) Data for the first quarter of 2017 incorporate revisions to data in the wake of the new guidelines issued by the Bank for International Settlements.

(2) Net risk transfers represent the difference between guarantor basis and immediate counterparty basis. A positive (negative) sign reflects a higher (lower) exposure of Portugal vis-à-vis foreign countries at the guarantor basis.

(3) The composition of geographical aggregates can be found in BPstat | Statistics online.
