Public debt August 2016

October 3th, 2016

Banco de Portugal publishes today in table A.15 of the Statistical Bulletin and in *BPstat*, public debt statistics for August 2016.

In August 2016, public debt reached 243.3 billion euro (Chart 1), an increase of 2.5 billion euro when compared with the previous month (Chart 2). This increase reflects net issuances of securities (2.6 billion euro), of which 1.6 billion euro due to the

issuance of Treasury bills and 1.2 billion euro due to the second issuance of floating rate bonds.

The increase in deposits of central government (3.2 billion euro) was greater than the increase of the public debt, resulting in a decrease of 0.7 billion euro of net debt of deposits of central government to 223.6 billion euro at the end of August 2016.
