### Banking loans and deposits

April 2016

June 14<sup>th</sup>, 2016

Banco de Portugal publishes today in table A.9 of the Statistical Bulletin and in *BPstat*, statistics on banking loans and deposits vis-à-vis non-financial corporations and households for April 2016.

#### Loans

In April 2016, the loans granted to non-financial corporations and households continued to show negative annual rates of change (a.r.), which stood respectively at -2.6% and -3.0% (Chart 1), less negative than in the previous month (-2.9% and -3.1%).

#### Deposits

In April, the households' deposits placed with resident banks increased by 323 million euros, adding to 139.6 billion euros at the end of the month. This increase reflected an a.r. of 5.1% (5.3% in March), interrupting the accelerating trend that had been observed since November 2015 (Chart 2). Nonetheless, it should be noted that the households' deposits registers positive a.r. since June 2014.
