Banking loans and deposits September 2016

November 8th, 2016

Banco de Portugal publishes today in table A.9 of the Statistical Bulletin and in *BPstat*, statistics on banking loans and deposits vis-à-vis non-financial corporations and households for September 2016.

Loans

In September 2016, the loans granted to non-financial corporations and households continued to show negative annual rates of change (a.r.) which stood at similar levels to those observed in August: -2.5% and -2.9%, respectively (Chart 1).

For the euro area as a whole the a.r. stood at 1.4%,

for loans to non-financial corporations, and of 2.4%, for loans to households.

Deposits

The households' deposits placed with resident banks - which amounted 140.2 billion at the end of September - recorded an a.r. of 2.4% in September, below the value of 2.8% recorded in August (Chart 2).

In the euro area, the a.r. of households' deposits stood at 3.7%.
