Today, Banco de Portugal publishes statistics, in Table A.15 of the *Statistical Bulletin* and in *BPstat*, on general government financing for July 2017.

From January to July 2017, general government financing stood at €4.5 billion, compared with €5.2 billion in the same period of 2016 (Chart 1).

Financing obtained by the general government from banks and other resident sectors stood at €4.2 bil-

lion and €3.0 billion respectively. By contrast, financing granted by non-residents stood at €-2.8 billion, mostly reflecting early repayments of IMF loans of €4.5 billion (Chart 2).

Financing through securities amounted to €8.6 billion, which more than offset the €4.1 billion reduction in loans net of deposits.
