Today, Banco de Portugal publishes statistics, in Table [A.15](#) of the *Statistical Bulletin* and in *BPstat*, on general government financing for August 2017.

From January to August 2017, general government financing stood at €2.6 billion, which is lower than the €4.4 billion registered in the same period of 2016 (Chart 1).

Financing obtained by the general government from banks and other resident sectors stood at €1.9

billion and €3.9 billion respectively. By contrast, general government financing granted by non-residents stood at €-3.2 billion, mostly reflecting early repayments of IMF loans of €5.3 billion (Chart 2).

Financing through securities amounted to €11.0 billion, which more than offset the €8.4 billion reduction in loans net of deposits.
