Non-financial sector indebtedness February 2017

24 April 2017

Today, Banco de Portugal publishes statistics, in Table [A.20](#) of the *Statistical Bulletin* and in *BPstat*, on non-financial sector indebtedness for February 2017. These data incorporate revisions, according to the statistics revision policy of Banco de Portugal.

In February 2017 non-financial sector indebtedness stood at €717.4 billion, of which €311.5 billion referred to the public sector and €405.9 billion to the private sector.

Comparing with January, non-financial sector indebtedness increased by €1.4 billion, of which €1.3

billion in the public sector (Chart 1).

The financing granted by all resident sectors to the non-financial public sector increased and the external financing declined (Chart 2).

In the private sector the indebtedness of corporations remained unchanged and that of private individuals increased by €0.1 billion. Financing of the resident financial sector to the private sector increased. However, for corporations this increase was fully offset by a reduction in external financing.
