Non-financial sector indebtedness April 2018

21 June 2018

Today, Banco de Portugal publishes statistics, in Table [A.20](#) of the *Statistical Bulletin* and in *BPstat*, on non-financial sector indebtedness for April 2018.

In April 2018, non-financial sector indebtedness stood at €724.3 billion, of which €322.5 billion referred to the public sector and €401.8 billion to the private sector.

Compared to March 2018, non-financial sector indebtedness increased by €4.6 billion, as a result of an increase of €4.5 billion in public sector

indebtedness (Chart 1). This is reflected in an increase in external indebtedness and vis-à-vis the financial sector (Chart 2).

As regards the private sector, the indebtedness of private individuals increased by €0.1 billion vis-à-vis the financial sector. The increase in external financing to corporations (€0.2 billion) was offset by the decline in indebtedness vis-à-vis the financial sector.
