### Securities issues August 2018

11 October 2018

Today, Banco de Portugal publishes statistics, in Table [A.25](#) of the *Statistical Bulletin* and in *BPstat*, on issues of debt securities and shares for August 2018.

In August 2018 net issues (gross issues minus redemptions) of securities by residents totalled €1.0 billion. This amount is mainly accounted for by positive net issues of debt securities, worth €0.9 billion (Charts 1 and 2).

The outstanding amount of securities issued by residents totalled €463.0 billion (Chart 3), down by €2.4 billion from July 2018. This decrease was chiefly due to the devaluation of debt securities issued by the general government and shares issued by non-financial corporations (Chart 4).
